## INVITATION

With the theme *Operations Research: Sustainable Development*, the conference seeks to bring together OR researchers, academicians and practitioners, whose collective work has sustained continuing OR contribution to decision-making. The conference aims to provide a forum where:

- Participants can exchange ideas on how OR methodologies have been or could be used to enhance national competitiveness;
- Researchers will present their findings dealing with the theoretical, computational, and application aspects of operations research;
- Practitioners will share their experiences on the problems, methodologies and outcomes of applying OR to solve real-world problems;
- Decision-makers could gain insights from experiences of others who have benefited from the use of OR in the public and private sectors.
